The laboratory will follow strict procedures for the chain of custody and access to test results. The laboratory will provide qualified collectors to oversee collection of specimens. The service will provide Medical Review Officer (MRO) services for the interpretation and verification of positive results. The MRO will report all test results to designated school officials. Results will not be provided either orally or in writing to any person who has not been designated by the district to receive results. The District reserves the right to test for prohibited/illegal substances, including but not limited to: alcohol, amphetamines, barbiturates, benzodiazepines, cannabinoids, cocaine, methadone, methaqualone, opiates, phencyclidine, steroids, other illegal or addictive drug and any adulterant.

The District will destroy the records maintained under this policy in accordance with the District's records retention schedule.

7. If the drug test indicates positive results, the laboratory will immediately forward the results to its MRO. The MRO will contact the designated school official to report the positive result. The school official will contact the parent/guardian to determine if prescription medication or other legal substances may have caused the positive result.
